In file No. AFD 104 FAF 64, Z.D. (4) has advised that the appointment of Dy. Comm. as Appellate Authority under Sec. 14 of the Madras Forest Act, 1882, will lead to complications if the Dy. Comm. does not satisfy the required condition that he should be an Officer of Rev. Deptt. with 12 years' standing. Consequent to this, the C.C.F. has suggested the appointment of Dvl. Comm. as the Appellate Authority. The file has been submitted on 2-8-65 for being referred to R.D. Hence this file and files Nos. AFD 62 FAF 65, AFD 64 FAF 65, AFD 74 FAF 65, AFD 81 FAF 65 and AFD 78 FAF 65 (placed below) which have similar Notifications will be taken up after the Form of Notification to be issued under Sec. 4 of the Madras Forest Act, 1882, is finalised in file No. AFD 104 FAF 64. Certified that 'Halady Block' is situated in S.Nos.139 and 58 of Halady village, Coondapur Taluk, South Kanara. The total area of the block is 205.75 acres.

The block is surrounded from all sides by patta lands. A buffer belt of 100 yards has been provided to all such private lands. A P.W.D.main road from Halady enters on northern side of the block in between cairn No.26 and 27 and finally emerges out on southern side of the block in between cairn No.43 and 49 leading to Someshwar. The demarcation works were supervised by Sri U. Bhagwandas, Forester and check measured by me between 1.8.1964 ~~and~~ to 22.10.1964. The area was surveyed by Sri L.V.Shivarame Gowda, Surveyor, Divisional Forest Office, Survey and Demarcation, Mangalore.

Dr/-

Tree Growth Certificate

This area may be called as 'Halady Block', located in survey numbers 139 and 58 of Halady village, Coondapur Taluk, South Kanara. The total extent of the block is 205.75 acres in extent.

The area is rich in important timber yielding species and other jungle wood species. The predominant tree species like Eugenia, Hopea, Terminalia, Lajestromia etc. are commonly found all over the block in varying sizes. The area is surrounded from all sides by patta lands. The village needs like dry fuel and dry leaves can be conveniently procured. Tree species like Mangifera indica, Artocarpus hirsuta, Xylia Xylocarpa are also found in patches. Thus the whole area is covered with vegetation.

Sd. Shivanath Rai,
Forest Range Officer,
Survey and Demarcation,
Coondapur.

South: From station No. 53 the demarcation line further runs in almost south western direction to station No. 56, passing through the intermediate stations 54 and 55 at a total distance of 1111 links. From there the demarcation line runs in south western direction to station No. 58 passing through the intermediate station No. 57, at a distance of 665 links. Then the line runs to north west to station No. 60, passing through the middle station No. 59, a total distance of 915 links. From there the line runs in eastern direction to station No. 63, passing through the intermediate stations 61 and 62 a total distance of 1340 links. From there the line runs to north east to station No. 64 a distance of 300 links, and runs in almost north west direction to station No. 67, passing through the intermediate stations 65 and 66 a total distance of 1040 links. From there the line further runs to west to station No. 68 at a distance of 420 links then direction of the demarcation line changes to North to station No. 69 at a distance of 548 links. Further the line runs in north west direction to station No. 72, passing through the intermediate stations 70 and 71 a total distance of 863 links. Once again the line runs to north to station No. 73 a distance of 350 links. From there the line runs in due west to station No. 75, passing through the intermediate station No. 74, a total distance of 558 links. Then the line runs in almost southern direction to station No. 77 passing middle station No. 76 at a total distance of 573 links. Further the line runs to west to station No. 78 a distance of 265 links. Once again the line runs in almost southern direction to station No. 79 a distance of 290 links and runs tosouth west to station No. 80 at a distance of 605 links. From there the line runs in almost northern direction to station No. 81 a distance of 560 links. Therefrom the line then runs to west to station No. 83, passing the middle station No. 82 a distance of 620 links. Then the boundary line runs in south west direction to station No. 89, passing the middle stations 84 to 88 a total distance of 2170 links. From there the line runs in due south direction to station No. 90 at a distance of 540 links, then direction of the demarcation line changes to north west to station No. 91 at a distance of 400 links. Therefrom the line runs in almost south western direction to station No. 94 at a distance of 1054 links, passing through the

.....

25

passing through the intermediate stations 92 and 93. Then the line runs in north west direction a distance of 652 links to reach the station No. 96. Therefrom the line runs in almost western direction to station No. 98 over a distance of 900 links. The bearings and distances from station to station are furnished below.
